

AIRCRAFT HYDRAULIC GROUND SUPPORT EQUIPMENT

AIRBOX – Series OUT0964

ABC hydraulic suitcases are suitable for:

- ✦ Calibration of hydraulic / nitrogen ground tests

The maintenance as suitcase is a relevant on-line tool to carry out maintenance operations such pressure level adjustment, inflation on pneumatic and oleopneumatic aircraft accessories using the following couplings:

- Nato (7,747 * 0,794)

It is designed as an on-line system with focus on simplicity to operate and maintain.

Operating maximum pressure

210 bar / 3000 PSI

numeric pressure gauge:

300 bar/4350 Psi

AIRCRAFT HYDRAULIC GROUND SUPPORT EQUIPMENT

OVERALL DIMENSIONS

Nitrogen hose:

- 2m nitrogen hose nato L
- 2m nitrogen hose nato L

OPERATING CONDITIONS

Operating temperature:
from -10°C to +45°C

Standard components included: (other upon request)

Transportable suitcase

Male Nato / Male M12*1.25

Nato valve special tooling for maintenance

Equipped 3 lines
Manifold

Digital pressure
gauge
0-4358 Psi / 300Bar

Wrench sets bag

Adjustable turning 90°
coupling male-female Nato

Twin femelle coupling Nato

Standard accuracy (other upon request)

- ✦ Pressure gauge: Class 0.1%

Options available (other upon request)

- ✦ **BP** : Digital pressure gauge 0 – 435 Psi/ 30 bar
- ✦ **RL**: Valve extension 45 mm M – F Nato

Other upon request

Option : BP
Digital pressure
gauge
0-435 Psi / 30Bar

Option : RL

To order:

AIRBOX - **BP - RL**
